Where I'm Going to Be At CFUnited

I just finished updating my CFUnited schedule for next week's conference, now that all of the Saturday sessions are available. If you are going to be attending this year's conference, the organizers are requesting that you enter your schedule into the online scheduling app to help them determine room sizes for each session.

I must say I am very impressed with this year's lineup. I had no trouble finding sessions that were of great interest to me in practically every time slot, and the repeat sessions that take place on Satrurday are going to enable me to see virtually every session that I want. If you're interested to know which sessions I've chosen, see the table below, which was generated by the CFUnited scheduler app:

Wednesday

Wednesday, July 28, 2010

Start	End	Speaker(s)	Topic
9:00AM	10:30AM	Adam Lehman, Terry Ryan	Adobe Keynote
10:30AM	11:00AM	TBA	Networking Break
